## AGENDA (#)

**8:30 a.m. 1.0 Convene Meeting, Pledge of Allegiance, Introductions & Public Comment**

**8:45 a.m. 2.0 Meeting Objectives and Agenda**

**8:50 a.m. 3.0 Protect and Increase Funding: How is it to be done?**

- Mike Evanhoe, from Rescue Transportation Working Group
- Mark Watts, from Save Proposition 42 Working Group

In light of the chronic and seemingly structural problems faced in the funding arena, several groups in the transportation community have formed to put forward solutions. They will discuss how their proposals would work and how the community can come together to form a strong advocacy coalition.

**9:45 a.m. Break**

**9:55 a.m. 4.0 Discussion of California State Issues: Funding, California Performance Review, Bay Bridge, etc.**

- Will Kempton, Director, California Department of Transportation (Caltrans)
- Steve Heminger, Executive Director, Metropolitan Transportation Commission

The Governor has proposed a budget that further squeezes transportation funding, including Proposition 42 funds, and the reliance on tribal gaming revenues for transportation has proven to be risky. The newly elected Legislature will grapple with this in the context of another very difficult budget year. In addition, the Governor's California Performance Review has proposed organizational changes for transportation. The East Span Bay Bridge replacement is again an issue. The guest speakers will provide perspectives from the state and regional levels.

**11:00 a.m. 5.0 Federal and State Legislative Issues: Reauthorization, Funding Increases, etc.**

- Jim Copeland, Federal Legislative Advocate
- Lynn Suter, State Legislative Advocate

Federal reauthorization of TEA 21 was stalled in the last Congress. In 2005 the new Congress and a newly re-elected Administration will try again to pass a new 6-year reauthorization bill that will provide adequate funding and maintain flexibility. The State budget again compromises transportation funding. ACCMA's advocates at the federal and state levels will provide insight these issues, as well as other important issues (structural changes, interagency relationships, personnel changes, etc.) likely to affect transportation in the coming years.

**11:40 a.m. 6.0 Next Steps: A group discussion**

**12:00 7.0 Adjourn to Tour of Port of Oakland**

When using any driving directions or map, it's a good idea to do a reality check and make sure the road still exists, watch out for construction, and follow all traffic safety precautions. This is only to be used as an aid in planning.
